Academic Appointments

Doctoral Researcher, Luxembourg Institute of Socio-Economic Research (LISER)

September 2023–present

Doctoral research within the FNR-funded UNSASSUB project.

Senior Lecturer, Department of Applied Statistics and Digital Technologies, Mari State University

September 2022–present

Education

PhD in Economics, University of Luxembourg

2023–present

Expected completion: 2027. Supervisor: François Maniquet.

MSc in Economics, Higher School of Economics (HSE University), Moscow

2018–2021

Thesis: “Economic Impacts of Forced Migration.” Grade: 9/10.

BSc in Business Administration, Lebanese University, Beirut

2005–2010

Research Interests

Labour economics; public economics; social choice and welfare economics; structural discrete-choice labour supply; heterogeneous job opportunities; money-metric well-being; inequality decomposition; optimal taxation; tax-benefit microsimulation.

Working Papers

“Unequal Job Opportunities and Well-Being Inequality: A Latent-Jobs Structural Decomposition”

Solo-authored. *Job market paper – work in progress.*

Develops and estimates a latent-jobs structural labour-supply model to measure money-metric well-being and quantify how much of its inequality is attributable to unequal access and job opportunities, ability or wage technology, and heterogeneous preferences.

“Jobs and Well-Being Measurement”

With François Maniquet. *Work in progress.*

Reformulates welfare measurement when labour supply is a choice among jobs rather than continuous hours; separates ability sets from job-specific income profiles; and derives impossibility and characterisation results under compensation and responsibility axioms.

“Decomposing Indexation and Tax Reform: Evidence from Luxembourg’s 2025 Tax-Benefit Package”

With Nizamul Islam. *Work in progress.*

Uses static EUROMOD microsimulation and an exact Shapley decomposition across eight scenarios to identify the contributions of indexation, personal-income-tax bracket reform, and targeted reforms to disposable income, poverty, inequality, and household incidence.

Selected Presentations

“Unequal Job Opportunities and Well-Being Inequality: A Latent-Jobs Structural Decomposition”

DSEFM PhD Workshop, University of Luxembourg. *Forthcoming.*

17 September 2026

“Jobs and Well-Being Measurement”

Second International Conference on Inequalities and Opportunities, University of Bari Aldo Moro, Bari, Italy.

With François Maniquet.

25–26 June 2026

“Decomposing Indexation and Tax Reform: Evidence from Luxembourg’s 2025 Tax-Benefit Package”

Poster presentation, First Summer School on Inequalities and Opportunities, Bari, Italy. With Nizamul Islam.
23–25 June 2026

“Jobs and Well-Being Measurement”

18th Meeting of the Society for Social Choice and Welfare, University of Tokyo, Tokyo, Japan. With François Maniquet.

13–16 June 2026

“Welfare, Jobs, and Optimal Redistribution: Bridging Discrete Choice and Income Tax Theories”

2nd Welfare & Policy Conference, Bordeaux School of Economics, Bordeaux/Pessac, France. With François Maniquet.

5–6 May 2025

Teaching Experience

Senior Lecturer, Mari State University

September 2022–present

Current and recent courses: Economic Security and Risks; Mathematical Methods of Decision-Making under Risk; Data Analysis in Python; Research Seminar; Digital Culture. Previously taught: Advanced Econometrics; Machine Learning; Microeconomics and Macroeconomics.

Co-founder and Tutor Coordinator, private educational services

2011–present

Teaching and coordination in economics, econometrics, quantitative methods, and data analysis.

Research Experience

Research Assistant, Department of Theoretical Economics, HSE University

2021–2022

Contributed to “Sectarian Aid, Sanctions, and Subnational Development” by Cemal Eren Arbatli and David Gomtsyan.

Advanced Training and Selected Participation

International ELMI Conference, “Securing Skilled Workforces in Europe,” Brussels

1–2 October 2024

Participant.

Discrete Choice Analysis: Predicting Individual Behavior and Market Demand, EPFL, Lausanne

11–15 February 2024

Advanced intensive course by Moshe Ben-Akiva and Michel Bierlaire.

Technical Skills

- **Programming and computation:** Python, R, MATLAB, SQL
- **Econometrics and microsimulation:** Stata, EUROMOD, Biogeme
- **Other analytical tools:** EViews, IBM SPSS, Tableau
- **Reproducible research:** L^AT_EX, Git/GitHub

Languages

Arabic: native English: fluent Russian: fluent French: fluent
Spanish: basic reading and conversational proficiency

Professional Memberships

Society for Social Choice and Welfare (SSCW) Society for Research on Welfare and Policy (WAP)

Certifications

Google Data Analytics Professional Certificate (January 2023) IBM Data Science Professional Certificate (September 2020)
